Jefferson County Public Schools (JCPS) were so appreciative of the fact that the UAW opened their doors to them and what made this even better is the fact that they needed an area for the ambassadors to work on walking backwards while talking during tours at their given schools. Obviously this was done with SAFETY at the forefront.

Jefferson County Public School 2019 Ambassador Training @ UAW Local 862

The students have learned that their admiration and infatuation with the amazing products that Ford Motor Company produce is NOT just about vehicles but ALSO how the United Auto Workers are all about building the community as well as world class products.

The day was great for our community on the fact that the ambassadors for The Academies of Louisville are learning that Unions are for workers and working families. We do not just build great vehicles but great communities as well. The UAW provided T-Shirts, Popcorn, school supplies along with the hospitality. The ability to understand that we are involved in making a difference in our community has been relayed to the ambassadors for our future and our recruitment for our future.
