

SOCIAL SECURITY PRIVATIZATION WOULD BE DEVASTATING FOR HISPANICS!

In an effort to sell his scheme to privatize Social Security, President Bush has largely ignored the devastating impact this would have on Hispanics.

THE TRUTH IS:

Hispanics rely heavily on Social Security as the mainstay of their retirement income. They also benefit enormously from Social Security's survivor and disability benefits. Roughly 75 percent of Latinos who are over 65 years old depend on Social Security for more than half of their total income.

President Bush's scheme to privatize Social Security would lead to huge cuts in retirement, disability and survivor benefits for Hispanics. As a result, it would lead to a sharp reduction in the standard of living for millions of Hispanics.
