

# Get Out The Vote!

In Carolina, we are proud to say that our UAW locals 2404, 3520, 5285, 5286, and 5287 have been actively engaged in “get out the vote” efforts. All our locals and their respective members and representatives have been phone banking daily, week-end labor walks, week day labor walks, having face to

face conversations, and working the polls about our endorsed candidates. It is a great experience and we encourage all of our members to get involved. We all know that if you do not participate in the election process, someone else will be making the decisions that affect our lives for us. A big “thank you” to all of our members and representatives for doing what you have done during this election cycle.
